Seed-sharing packets

Seed packet assembly

1. Prepare

Print at actual size. The back panel is 60 x 90 mm; folds reduce usable space.

2. Cut

Cut the solid outside contour. Keep both side tabs, the front panel and closure flap.

3. Fold

With printed side down, crease the four dashed lines. Fold the 10 mm tabs inward, then bring the 80 mm front up.

4. Join

Glue only where each shaded side tab meets the front. Leave the top opening and 28 mm closure flap free.

5. Check

Let the seams dry. Over a tray, check corners and joins with a few dry seeds before filling.

6. Close

Leave room for the flap, then secure it. Add a small inner paper fold if seeds escape.

50 mm reference line

Seed labels

SEED / SPECIES

Calendula

Autumn mix

SEED / SPECIES

Sunflower

Autumn mix

SEED / SPECIES

Cosmos

Autumn mix

SEED / SPECIES
