OUT

Trace a route without crossing any wall. Each generated maze is connected and has one route between its entrance and exit.

A square maze with a single path highlighted in gray. The path starts at the top-left corner, moves right, then down, then right again, and continues through the maze, eventually exiting at the bottom-right corner. The path is composed of several segments of varying lengths, forming a complex route through the maze's corridors and dead ends. The maze is defined by black lines on a white background, with the path itself being a thick gray line.
