

## Soil texture observation - question and follow-up

Record observations and the next step. Leave uncertain details blank until you can check them.

---

### Starting observation

|                               |
|-------------------------------|
| <hr/> <hr/> <hr/> <hr/> <hr/> |
|-------------------------------|

### Question raised

|                               |
|-------------------------------|
| <hr/> <hr/> <hr/> <hr/> <hr/> |
|-------------------------------|

### What might explain it

|                               |
|-------------------------------|
| <hr/> <hr/> <hr/> <hr/> <hr/> |
|-------------------------------|

### Next safe observation to make

|                               |
|-------------------------------|
| <hr/> <hr/> <hr/> <hr/> <hr/> |
|-------------------------------|

### Sample reference

|             |
|-------------|
| <hr/> <hr/> |
|-------------|

### Location supplied

|                               |
|-------------------------------|
| <hr/> <hr/> <hr/> <hr/> <hr/> |
|-------------------------------|

### Dry appearance

|                               |
|-------------------------------|
| <hr/> <hr/> <hr/> <hr/> <hr/> |
|-------------------------------|

### What changed

|                               |
|-------------------------------|
| <hr/> <hr/> <hr/> <hr/> <hr/> |
|-------------------------------|

### What remains uncertain

|                               |
|-------------------------------|
| <hr/> <hr/> <hr/> <hr/> <hr/> |
|-------------------------------|

### Next review date

|             |
|-------------|
| <hr/> <hr/> |
|-------------|
