## PURPOSE

Fantasy Travelers paper puppet project developed as a measured original paper study. The packet provides the actual parts, joining or shaping marks, drawing dimensions and an assembly sequence. Print at actual size and dry-fit the parts before gluing.

## DRAWING FACTS

- Five original 118 mm puppet studies; five 160 x 36 mm handles that fold to a 12 mm strip.

## MATERIALS

Plain 100 to 140 gsm paper for a first dimensional trial; approximately 160 to 220 gsm card only after confirming the folds. Use a ruler, suitable scissors, a blunt scoring tool and a small amount of paper adhesive. An adult should handle internal cuts, holes and small fasteners.

## HOW TO USE THESE PAGES

1. Cut each puppet outline, retaining narrow appendages; the artwork details are not interior slits.
2. Fold each handle lengthwise at 12 and 24 mm and glue it closed into a firm strip.
3. Attach the top 32 mm of the handle to the reverse of its matching puppet. Add a second backing patch when needed.
4. Allow the join to dry, then use the puppet behind a low tabletop screen. These are hand-held figures, not automated articulated toys.
5. Inspect for torn appendages, sharp cut edges and loose parts before supervised use. Real use and suitability review are still required.

## LIMITS AND CHECKS

- Drawing dimensions describe flat paper surfaces, not verified internal capacity, load strength, fit or material compatibility.
- No mailing, food-contact, archival, toy-safety, protective-wear or cutting-machine certification is supplied.
- Make a plain-paper trial first; paper thickness and fold accuracy can change the fit.
- Trial: Measure the 50 mm reference and two named component dimensions.
- Trial: Make a complete empty trial and document fold direction, joining order, collision, stability and any fragile features.
- Trial: Repeat the trial using your chosen paper. Check that every join holds and each moving part works freely before decorating.
