

Flat-object paper presentation folder

ex2-1245 / A4 / Parts overview - NOT A CUTTING SHEET

USE THE FOLLOWING PATTERN SHEETS AT ACTUAL SIZE.

These miniature views identify the supplied patterns; they are deliberately reduced.

1. Pattern 1

1 pattern sheet supplied. Printed details are not cut lines unless explicitly marked.

Solid cut boundary / dashed score / shaded joining area. Read the full instructions.

Dry-fit the parts before gluing. Keep this overview beside the full-size pattern sheets.

Print at actual size / 100%. Disable fit-to-page.
Use the paper edition that matches the printer tray.

Flat-object paper presentation folder

ex2-1245 / A4 / Instructions

PURPOSE

Flat-object paper presentation folder. A dry display sleeve, not postal packaging. No shipping or protection promise.

DRAWING FACTS

- Nominal panel: 88 x 58 mm. This is a presentation folder, not protective mailing packaging.

MATERIALS

Plain paper for a first trial, a ruler, scissors and a blunt scoring tool; adult help for internal cuts.

HOW TO USE THESE PAGES

1. Cut the complete envelope net, keeping both shaded side tabs attached. Score the four panel boundaries.
2. Fold the side tabs inward, then fold the back panel over them. Apply adhesive only to the shaded side tabs and leave the top opening clear.
3. Fold the top flap down over the back. Hold it shut with a removable seal or a separate paper band; the flap has no locking tongue or receiving slit.
4. Dry-fit an expendable paper insert and open the closure repeatedly. Keep adhesive away from the insert and do not force a tight fit.

LIMITS AND CHECKS

- A dry display sleeve, not postal packaging. No shipping or protection promise.
- Nominal drawing dimensions are not a tested usable-capacity, load, mailing, food-contact or archival specification.
- Do not place valuable, wet, hot or breakable items in an unreviewed paper prototype.
- Trial: Measure the 50 mm reference and at least two named panel dimensions.
- Trial: Assemble an empty plain-paper trial; record closure, seam, clearance and material behavior.

50 mm print check

Print at actual size / 100%. Disable fit-to-page.
Use the paper edition that matches the printer tray.
