Space coloring scene collection

ex2-1294 / LETTER / Instructions

PURPOSE

Four original space coloring compositions: Launch window, Planet paths, Exploring a moon, Star map studio. Large scene panels keep room for coloring rather than filling every gap with repeated motifs.

DRAWING FACTS

- Four distinct scene panels, each 184 x 174 mm. Letter and A4 preserve the same panel size.

MATERIALS

Plain paper for a first trial, a ruler, scissors and a blunt scoring tool; adult help for internal cuts.

HOW TO USE THESE PAGES

1. Choose a scene rather than printing the whole packet automatically. Each composition uses a different arrangement and focal subject.
2. Print the matching paper at actual size. Trace onto another sheet or color directly on the print.
3. Keep the outer border as a drawing frame. The interior art is not a cut-every-line construction template.
4. Try coloring materials on the margin before completing the panel. These files are not a natural-history identification guide.

LIMITS AND CHECKS

- Scenes are stylized imagined arrangements, not statements that all depicted subjects naturally coexist.
- No franchise, competitor artwork or stock tracing is included. Rights adoption still requires owner review.
- Trial: Confirm the reference bar and stated panel sizes.
- Trial: Check the actual small details and, for folded pieces, the fold alignment and unsupported edges.

50 mm print check

Print at actual size / 100%. Disable fit-to-page.
