

Removable package message strap

Removable package message strap

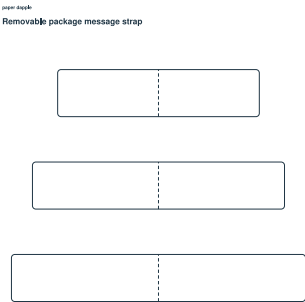

Assembly and use / Print at actual size / Make a plain-paper trial

MAKE THE PROJECT

Make a folded, removable message strap to slip over a paper edge or separate parcel band.

YOU WILL NEED

Matching printed sheet; ruler; pencil; scissors. Additional materials are identified in the steps.

50 mm scale check | Measure after printing

TEMPLATE REFERENCE

- 01 Print at 100% and check the reference. Select one of the three rounded strips and cut its outer border.
- 02 Write the message on one half. Fold at the central dashed line so the two rounded ends meet.
- 03 Slip the folded strap over a package edge or separate band and check that the message faces outward.
- 04 If needed, use a removable clip or a small piece of low-tack tape on the strap itself. Keep it free to slide off.

No locking slit or adhesive is supplied. This short folded strap is a message holder, not a full wraparound band or carrying strap.
