Gift-pack contents card

Assembly and use / Print at actual size / Make a plain-paper trial

MAKE THE PROJECT

Add a small contents card to a gift pack so the recipient can identify what is inside.

YOU WILL NEED

Matching printed sheet; ruler; pencil; scissors. Additional materials are identified in the steps.

50 mm scale check | Measure after printing

TEMPLATE REFERENCE

- 01 Print the sheet. Write the package or item title on a card and list its contents on the two ruled lines.
- 02 Check the list against the actual pack before cutting the card. Keep private details off a publicly visible card.
- 03 Cut the rounded outer card border. Place it inside the pack or attach it to a separate band with suitable paper adhesive.
- 04 Position the card so it can be read before loose contents are removed. Keep a spare card for any later changes.

The card is a contents note; include any required product or safety information separately.
