

Each strip shows equal parts. One part is lightly shaded as a reference.

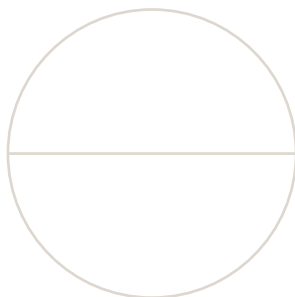

Compare the shaded part across strips. Equal-sized wholes are important when comparing fractions.

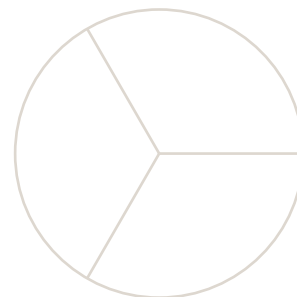

Each circle is divided into equal parts for cutting, pointing, or comparing.

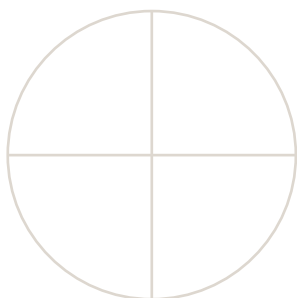

whole

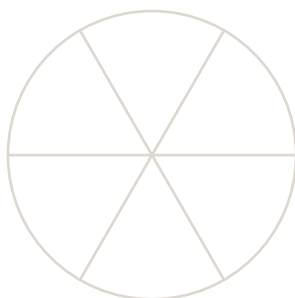

2 equal parts - $\frac{1}{2}$ each

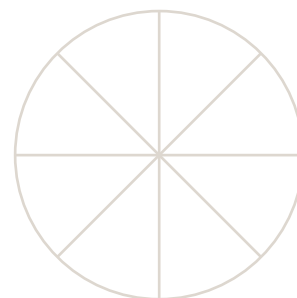

3 equal parts - $\frac{1}{3}$ each

4 equal parts - $\frac{1}{4}$ each

6 equal parts - $\frac{1}{6}$ each

8 equal parts - $\frac{1}{8}$ each
