Leaf hanging shapes for a garland or mobile

Use guide / Choose a garland or hanging mobile arrangement

MAKE A GARLAND

Cut around the outside of each leaf; the interior line is decorative, not an extra slit.

Punch the marked attachment point only after checking that enough paper remains around it.

Thread the leaves onto one cord, spacing them before fixing them with small knots or paper-safe tape.

MAKE A HANGING ARRANGEMENT

Use your own lightweight horizontal support; the template supplies leaf shapes, not a support frame.

Attach leaves on separate short lengths of thread. Add one at a time and adjust the positions until the support hangs level.

Keep hanging cords away from children and never install above a cot or sleeping area. Trial the paper and attachment before display.
