Botanical hanging mobile

Hanging guide / Six shapes / Supply your own support and thread

01 / Cut and decorate

Cut the six outer silhouettes. Keep interior decorative lines intact; they are not extra cut-outs. Color the shapes before hanging.

02 / Attach the thread

Pierce the small marked circles. Pass a short thread through each hole and secure it. If your stock tears at a trial hole, add a small paper reinforcement to the back before piercing.

03 / Hang and balance

Supply your own lightweight horizontal support. Tie the six shapes on separate lengths of thread, leaving enough space that they can move without tangling. Add and adjust one at a time until the support hangs level.

04 / Display

Check all knots and paper attachments before display. Keep hanging cords out of reach of children and away from sleeping areas. These paper decorations are not toys.
