

Folded wallet mini album

pap-105 / A4 / Parts overview - NOT A CUTTING SHEET

USE THE FOLLOWING PATTERN SHEETS AT ACTUAL SIZE.

These miniature views identify the supplied patterns; they are deliberately reduced.

1. Pattern 1

2. Pattern 2

2 pattern sheets supplied. Printed details are not cut lines unless explicitly marked.

Solid cut boundary / dashed score / shaded joining area. Read the full instructions.

Dry-fit the parts before gluing. Keep this overview beside the full-size pattern sheets.

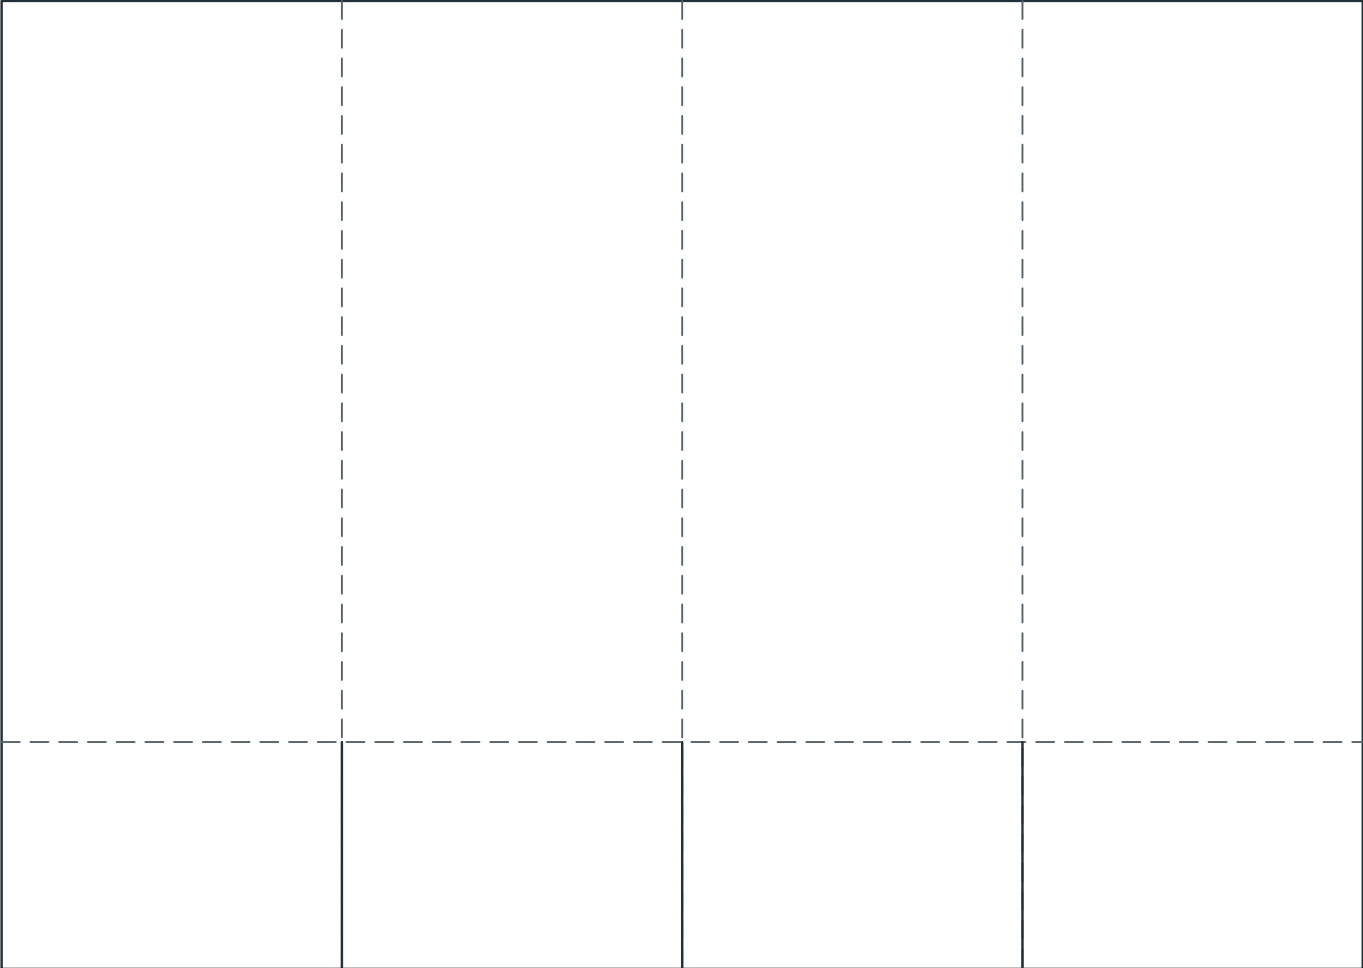

Print at actual size / 100%. Disable fit-to-page.
Use the paper edition that matches the printer tray.

Folded wallet mini album

pap-105 / A4 / Instructions

PURPOSE

Folded wallet mini album developed as a measured original paper study. The packet provides the actual parts, joining or shaping marks, drawing dimensions and an assembly sequence. Print at actual size and dry-fit the parts before gluing.

DRAWING FACTS

- Four 45 x 98 mm album faces with 30 mm folding pocket tabs.

MATERIALS

Plain 100 to 140 gsm paper for a first dimensional trial; approximately 160 to 220 gsm card only after confirming the folds. Use a ruler, suitable scissors, a blunt scoring tool and a small amount of paper adhesive. An adult should handle internal cuts, holes and small fasteners.

HOW TO USE THESE PAGES

1. Score the four-panel accordion and cut pocket separations only below 98 mm.
2. Fold each 30 mm pocket upward and bond its two sides with narrow paper tabs.
3. Alternate the three album hinges. Do not overfill the pockets or force the wallet closed.
4. The separate 43 x 60 mm pocket blanks are optional alternatives, not extra layers to stack over the integral pockets. Fix only their side and bottom zones and leave their tops open.
5. Close the empty album, then add one thin paper insert per face and recheck. Keep all pocket edges and adhesive away from the three accordion hinges.

LIMITS AND CHECKS

- Drawing dimensions describe flat paper surfaces, not verified internal capacity, load strength, fit or material compatibility.
- No mailing, food-contact, archival, toy-safety, protective-wear or cutting-machine certification is supplied.
- Make a plain-paper trial first; paper thickness and fold accuracy can change the fit.
- Trial: Measure the 50 mm reference and two named component dimensions.
- Trial: Make a complete empty trial and document fold direction, joining order, collision, stability and any fragile features.
- Trial: Repeat the trial using your chosen paper. Check that every join holds and each moving part works freely before decorating.

50 mm print check

Print at actual size / 100%. Disable fit-to-page.
