

Photo booth prop shapes

par-011 / LETTER / Parts overview - NOT A CUTTING SHEET

USE THE FOLLOWING PATTERN SHEETS AT ACTUAL SIZE.

These miniature views identify the supplied patterns; they are deliberately reduced.

1. Pattern 1

2. Pattern 2

3. Pattern 3

4. Pattern 4

5. Pattern 5

5 pattern sheets supplied. Printed details are not cut lines unless explicitly marked.

Solid cut boundary / dashed score / shaded joining area. Read the full instructions.

Dry-fit the parts before gluing. Keep this overview beside the full-size pattern sheets.

Print at actual size / 100%. Disable fit-to-page.
Use the paper edition that matches the printer tray.

Photo booth prop shapes

par-011 / LETTER / Instructions

PURPOSE

Photo booth prop shapes developed as a measured original paper study. The packet provides the actual parts, joining or shaping marks, drawing dimensions and an assembly sequence. Print at actual size and dry-fit the parts before gluing.

DRAWING FACTS

- Five photo-prop shapes and five 155 x 20 mm paper handle strips with marked joining ends.

MATERIALS

Plain 100 to 140 gsm paper for a first dimensional trial; approximately 160 to 220 gsm card only after confirming the folds. Use a ruler, suitable scissors, a blunt scoring tool and a small amount of paper adhesive. An adult should handle internal cuts, holes and small fasteners.

HOW TO USE THESE PAGES

1. Cut the five shapes around their outside edges. An adult should make any internal openings in the mask.
2. Cut a handle strip for each prop. Glue its marked end to the reverse of the prop, leaving most of the strip free as a handle.
3. Let the joins dry flat. Add a second layer of scrap card behind a handle if it bends during the trial.
4. Hold the prop loosely and keep sight and breathing clear. These pieces are hand-held decorations, with no straps or fitted wearable parts.

LIMITS AND CHECKS

- Drawing dimensions describe flat paper surfaces, not verified internal capacity, load strength, fit or material compatibility.
- No mailing, food-contact, archival, toy-safety, protective-wear or cutting-machine certification is supplied.
- Make a plain-paper trial first; paper thickness and fold accuracy can change the fit.
- Trial: Measure the 50 mm reference and two named component dimensions.
- Trial: Make a complete empty trial and document fold direction, joining order, collision, stability and any fragile features.
- Trial: Repeat the trial using your chosen paper. Check that every join holds and each moving part works freely before decorating.

50 mm print check

Print at actual size / 100%. Disable fit-to-page.
